

10 Team Tournament Chart

Teams paired with "Free Game" do not play. Those teams **automatically advance** to the next round, where they will play an actual game against another team. For example, Teams 1 and 2 both have "Free Games" in Round 1. They will play **each other** in the first game of Round 2. After a game is complete, the "Winner" moves into the next box on the chart, until the Tournament is complete.

Team 6
Delta Sigma Theta

Team 6
Delta Sigma Theta **180**

Team 7
Brainiac Attack **200**

Winner
Brainiac Attack **175**

Team 8
Student Gov't **185**

Winner
Alpha Phi Alpha **135**

Team 9
FootballerZ **135**

Team 10
Alpha Phi Alpha **195**

When you only have ten teams in a chart, six teams get a "Free Game" in the first round. Thus, the only teams that play in round one are Teams 7-10. In Round Two however, all eight of the remaining teams play.

Kappa Alpha Psi **190**

Kappa Alpha Psi **200**

Smart Alecks **185**

Congratulations, Brainiacs! You've won the tournament. But there were some excellent players on the other teams as well. Coaches should consider mixing up the teams over the next several months of practice and figure out the best combination for the Nationals team.
